Exhibition Outline

[Collective Term] NexTech Week TOKYO 2025 [Autumn]

[Dates] October 8[Wed]-10[Fri], 2025

[Open Time] 10:00 - 17:00

[Venue] Makuhari Messe Hall 4-6

[Organised by] RX Japan Ltd.

[Supported by]

AI EXPO TOKYO

- The Japanese Society for Artificial Intelligence
- Japan Deep Learning Association
- Association to Generalize Utilization of Generative AI
- Generative AI Japan
- AI Customer Experience Consortium

BLOCKCHAIN EXPO TOKYO

- Blockchain Collaborative Cons
- Japan Blockchain Associationortium

DX HUMAN RESOURCE DEVELOPMENT EXPO TOKYO

- Digital Literacy Council
- The Japan DataScientist Society
- Japan Deep Learning Association
- Japan Business Federation (Keidanren)
- Association to Generalize Utilization of Generative AI
- Information-technology Promotion Agency, Japan (IPA)
- e-LEARNING CONSORTIUM JAPAN
- Japan Online Training & Education Industry Association

[Special Cooperation]

QUANTUM COMPUTING EXPO TOKYO

- Quantum ICT Forum

[Exhibitions&Zones]

6th AI EXPO TOKYO [Autumn]

- Generative AI Hub
- AI Agent World
- [New] AI Infrastructure Zone

6th BLOCKCHAIN EXPO TOKYO [Autumn]

- Web3 World

6th QUANTUM COMPUTING EXPO TOKYO [Autumn]

4th DX HUMAN RESOURCE DEVELOPMENT EXPO TOKYO [Autumn]

- Organizational Transformation Zone

Concept & Themes

● Our Concept

In recent years, there has been a lot of attention to the use of advanced technologies in a wide range of businesses, including DX, business efficiency, and productivity improvement. The exhibition will feature products and solutions related to AI, blockchain, and quantum computing.

● Focus Theme

Empowering People to Drive Business Growth

Through tDX HUMAN RESOURCE DEVELOPMENT EXPO TOKYO, we focus on nurturing next-generation talent and enhancing their skills.

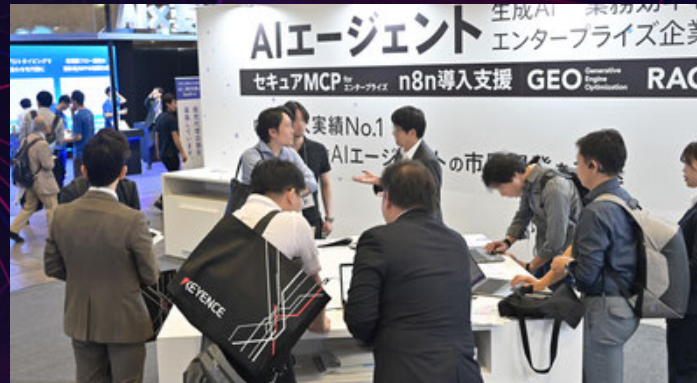

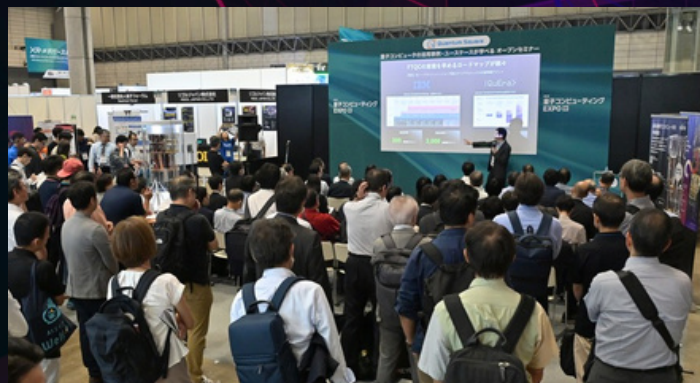

Driving Digital Transformation

In addition to cutting-edge technologies that deliver optimization solutions, services for organizational transformation to accelerate DX will also be showcased.

World-Changing Cutting-Edge Technologies

Showcasing the Cutting Edge of Next-Generation Technologies: AI Agents, Web3, and Quantum Computing.

About Exhibitors

Number of Badge Scans by LeadManager

Average Lead Count per Company **718 leads**

*The data provided includes only domestic (Japanese) exhibitors.

Comments from Exhibitors (Excerpted)

I felt it was a highly effective venue for making connections, as it attracted a large number of people.

We saw more visitors than anticipated, resulting in a major improvement in recognition.

The theme matched the interests of the visitors, resulting in strong engagement.

Participating in this show proved to be a valuable way to promote our company & services.

This survey item is based on NPS (Net Promoter Score).

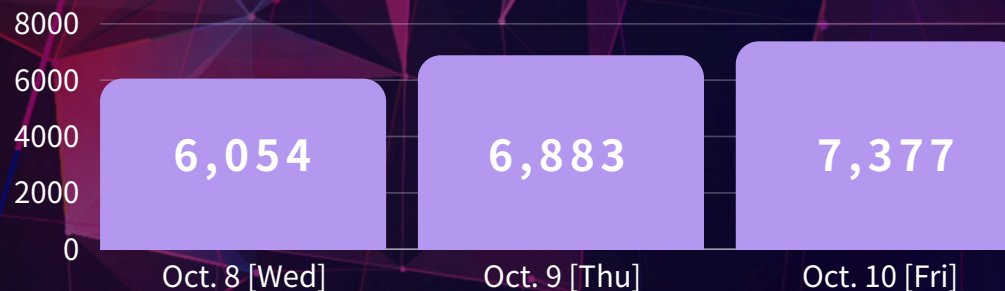

About Visitors

Total number of visitors over the 3-day exhibition period

20,314

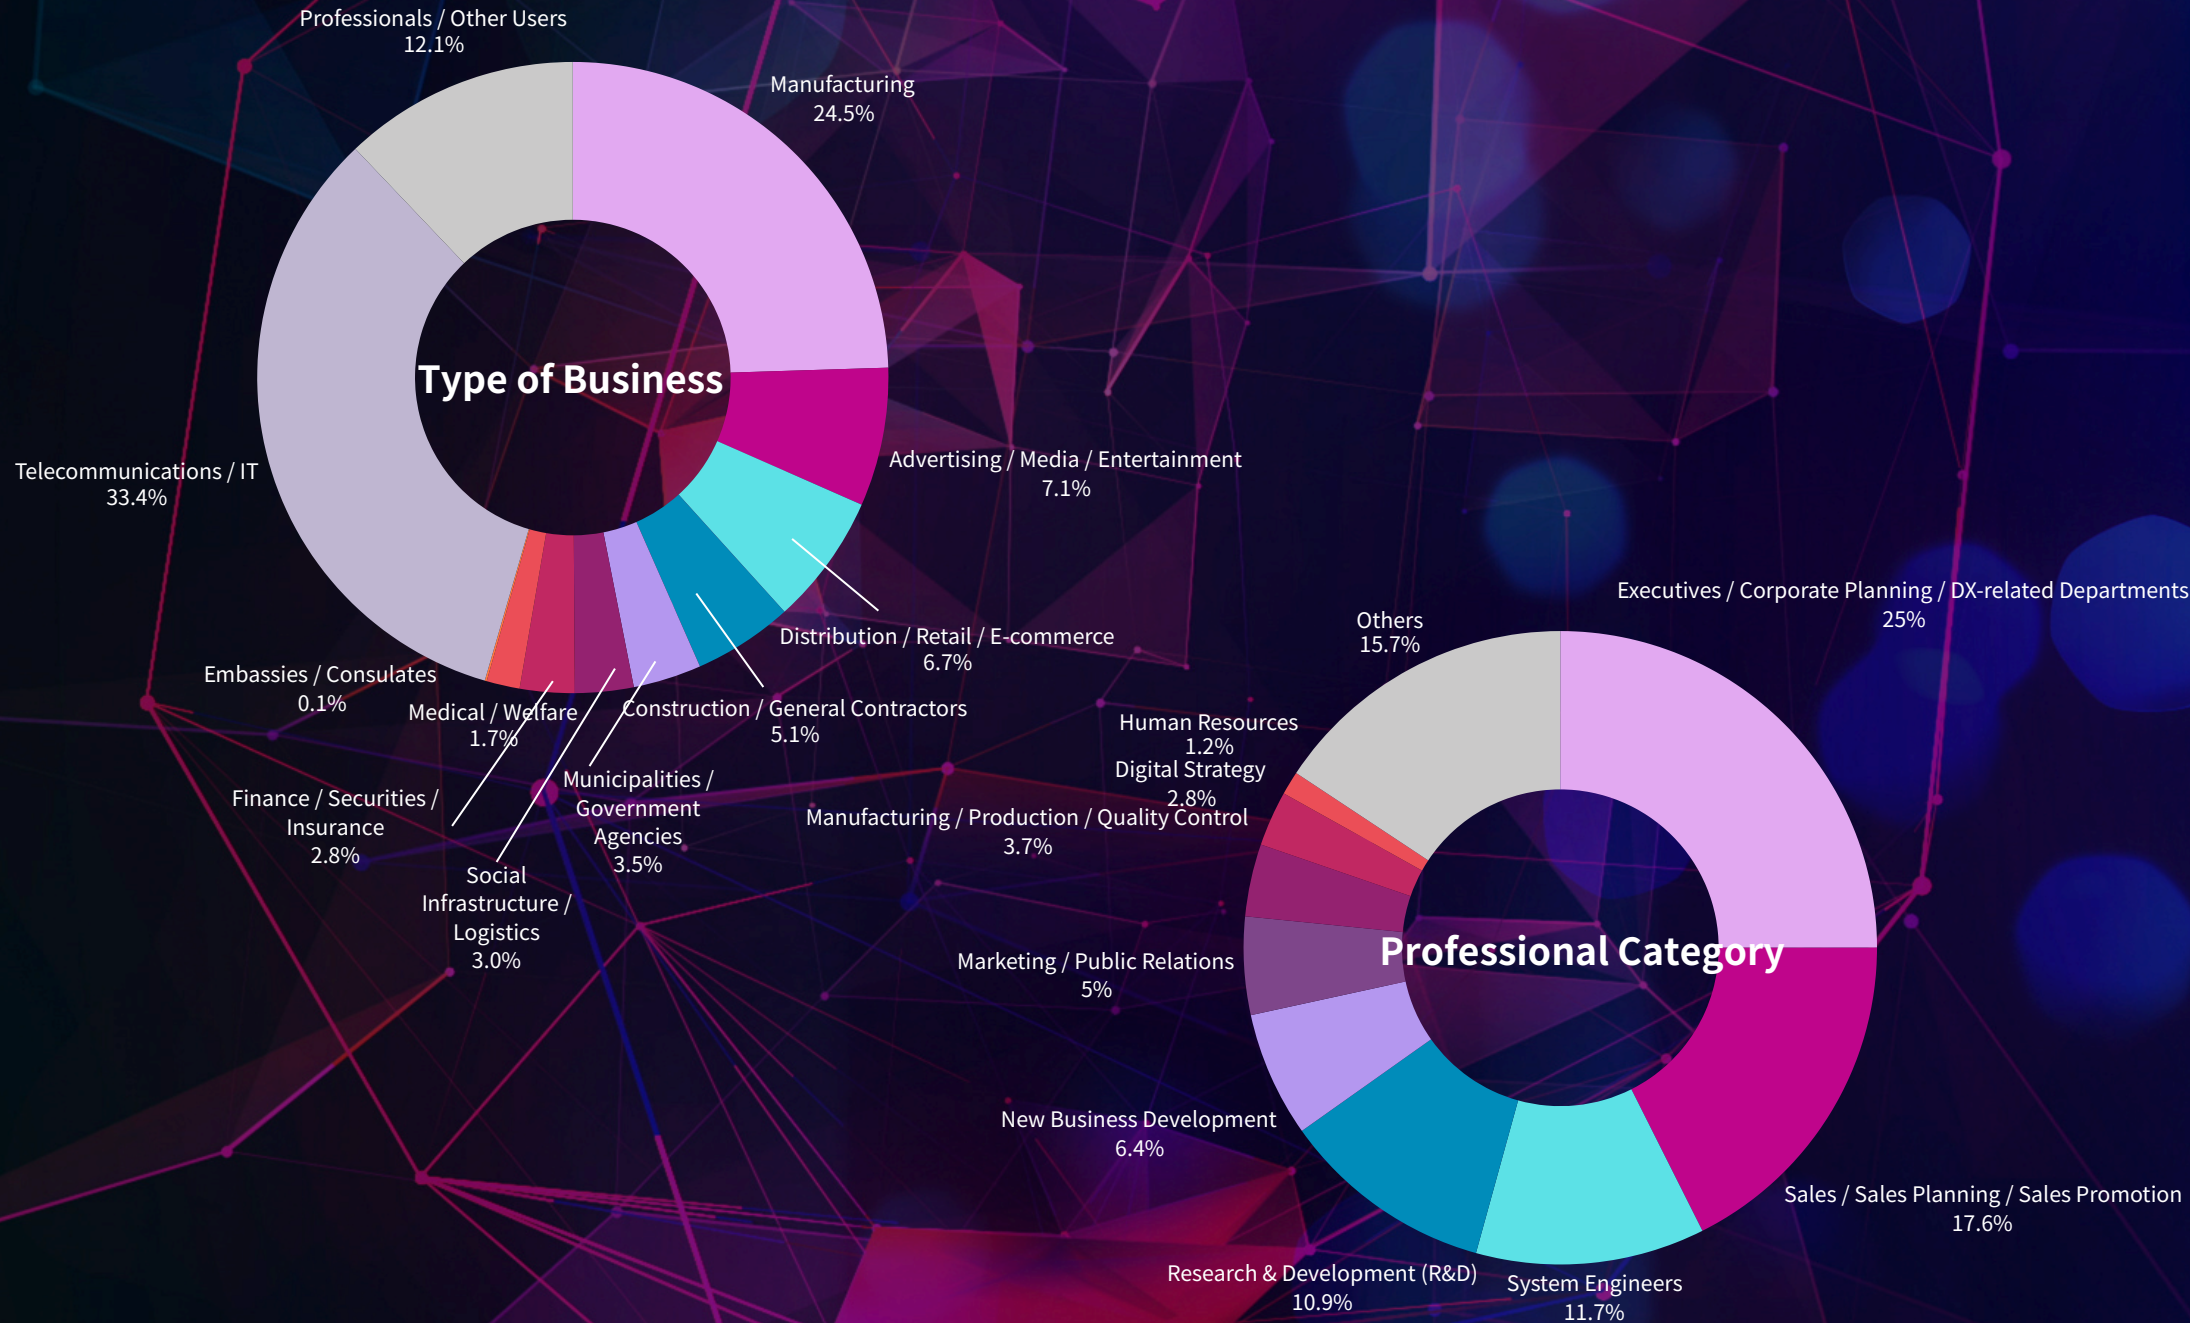

Announced by RX Japan Ltd. on October 14 [Tue], 2025

- If a visitor entered the venue multiple times on the same day, they are counted as one person.
- If a visitor attended on multiple days, they are counted once per day (e.g., 1 person attending 2 days is counted as 2).
- Exhibitors and members of the press are not included in the above figures.
- Includes the Concurrent Show.

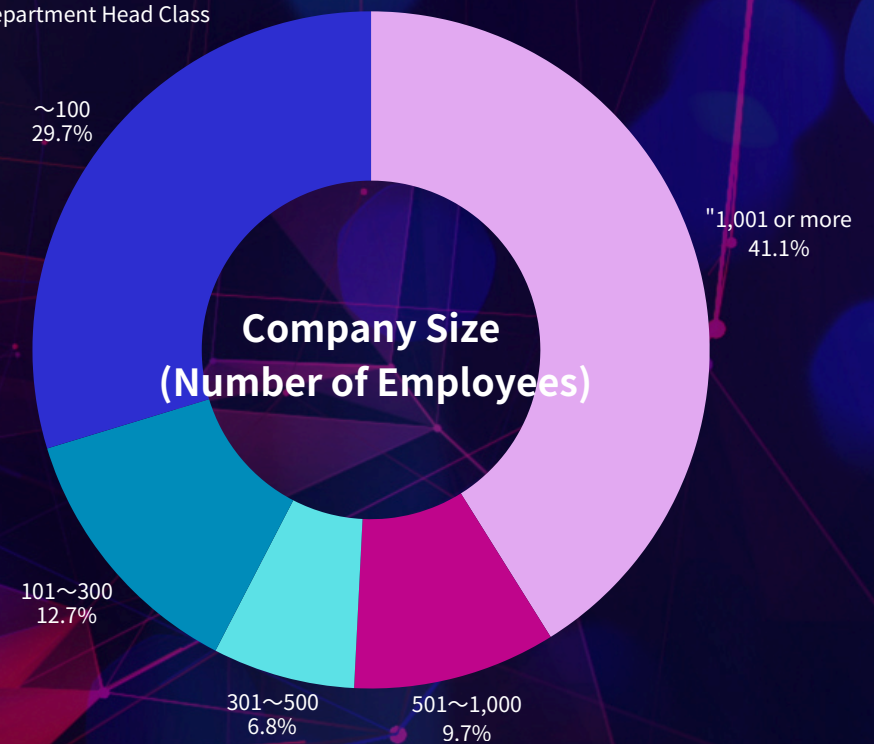

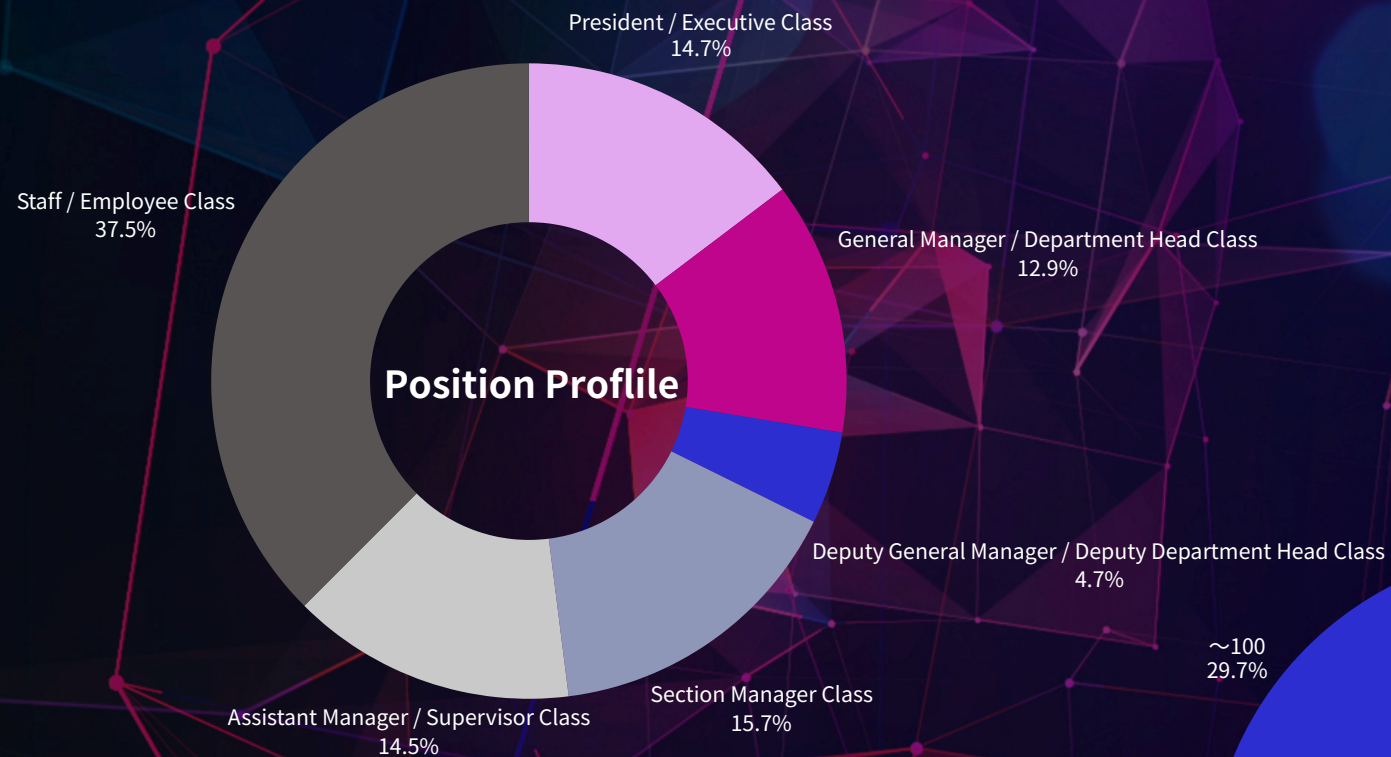

About Visitors

The following figures include the concurrent show.

About Visitors

The following figures include the concurrent show.

About Visitors

● Purpose of Visit

*Multiple answers allowed

Visitor Feedback (Excerpted)

We found it's very insightful that many exhibitors were interested in the issues our company is addressing.

My purpose was to collect information, but I found the time insufficient and recognized that my prior preparation was lacking.

This is the ideal place to discover technologies that drive operational improvements, such as efficiency through AI utilization.

I was inspired by the variety of exhibits and products at this show.

Just walking between the booths, I kept discovering new information.

I successfully discovered the AI service I needed.

This survey item is based on NPS (Net Promoter Score).

Conference Overview

Total participants

The following figures include the concurrent show.

8,954 (Up 160% year-on-year)

Session Count

A total of **30 sessions** /3 days

● Sessions by Theme

AI related sessions : 11

Blockchain related sessions : 11

Quantum Computing related sessions : 5

Digital talent development and upskilling related sessions : 3

View of the Seminar Venue

Conference Overview

Comments from Participants (Excerpted)

I had seen it in the news, but I was able to hear specific and valuable insights, including how it was actually developed.

We are currently considering introducing AI in our company, and I was able to learn exactly what I wanted to know.

I gained a clear understanding of the latest technology trends and what Japan should focus on, which was extremely informative.

I'm glad I was able to hear a candid discussion on how to engage both executives and those interested or uninterested in promoting DX.

It was a great opportunity to learn the reality behind the humanoid robots I see every day, and the content was extremely fascinating.

I was able to listen to an easy-to-understand discussion on quantum computer development and the fundamentals of algorithms in a conversational.

I was able to listen to a clear explanation of AI governance, including the differences between global and Japanese approaches.

I found it extremely interesting, as it included content on quantum computing that we don't usually get to hear.

I found the lecture on specific initiatives for DX human resource development to be very informative.

*From the Conference Survey

Special Programs & Event

● AI Table

Organised by: AI Customer Experience Consortium

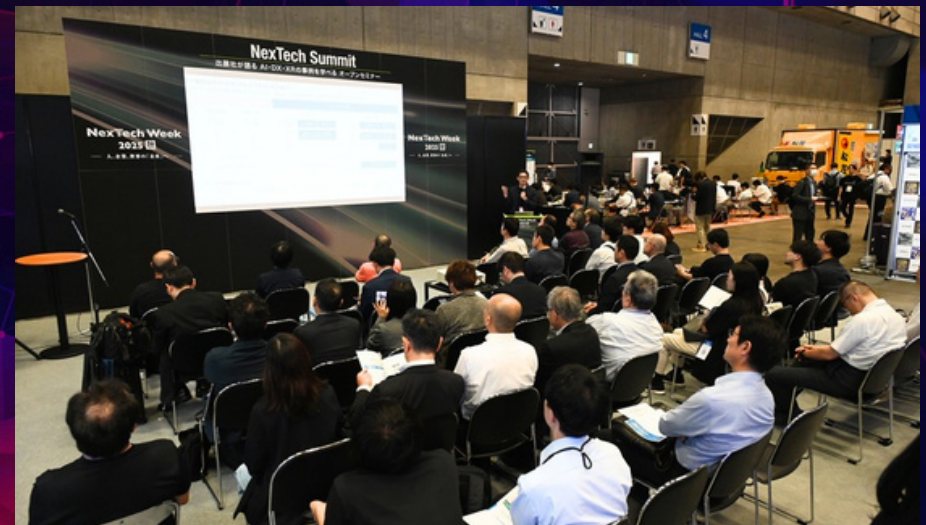

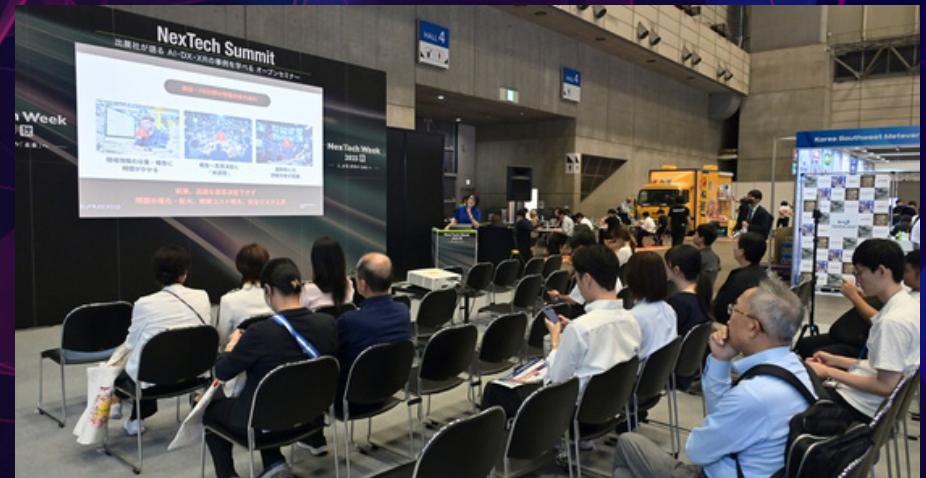

Special Cooperation: RX Japan Co., Ltd.

Under the theme “Last DX – The Reality of AI Agent Implementation,” the event provided participants with valuable insights focusing on the introduction and practical application of generative AI, organizational transformation, and the social implementation of AI agents.

● NexTech Summit

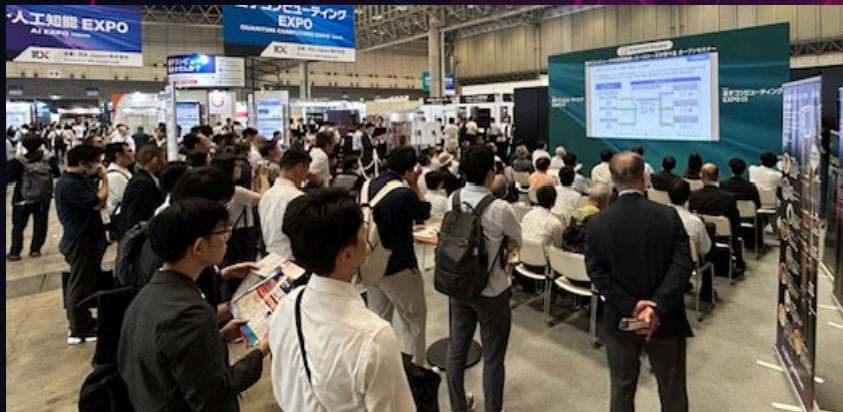

A platform where industry-leading exhibitors share their cutting-edge technologies, success stories, practical insights, and the latest trends.

Special Programs & Event

● Quantum Square

An open seminar to rediscover the “current state” of quantum computing through cutting-edge research findings and real-world use cases.

We presented a mock display of a quantum computer.

● DX HUMAN RESOURCE DEVELOPMENT EXPO Sample Training Sessions by Exhibitors

Implemented as a special program where participants could experience the training of their choices in just 30 minutes. The venue was sometimes crowded with visitors eager to check key points they consider important when introducing such programs.

Special Programs & Event

● DISCOVER KOREA

To commemorate the 60th anniversary of the normalization of diplomatic relations between Japan and Korea, we organized a special program showcasing Korea's latest technologies.

It was also featured on the reverse side of the Floor Map as the Event Map.

● GenAI HR Awards 2025

Recognition was given to exemplary cases of applying generative AI within advanced human resource strategies and organizational transformation.

From the press release by Association to Generalize Utilization of Generative AI.

Special Programs & Event

● MeetUP

The NexTech Week Meetup, held on the first evening for exhibitors to network, featured this year's theme: "NexTech Cross Night." It was an informal, casual gathering designed to break down technological barriers and connect people who had never spoken before. The event created an exciting atmosphere where conversations sparked new business opportunities and technological innovations.

Many exhibitors joined this gathering.

The toast was given by Mr. Noritaka Okabe, President and CEO of JPYC Inc.

An exhibitor leaving a message on the message board.

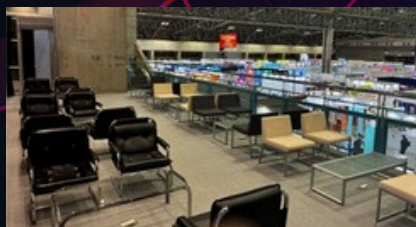

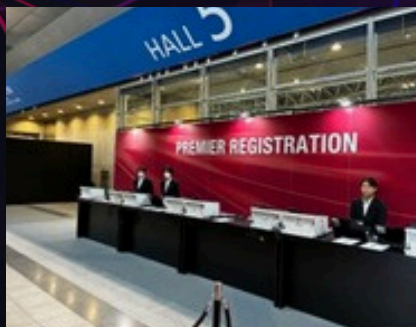

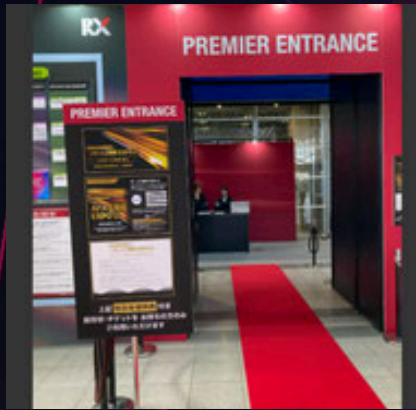

Exhibitors' messages on the board.

Exclusive lounge for special visitors

We prepared exclusive lounges to offer special value to executives and AI/DX leaders—key decision-makers in driving digital transformation for their organizations—and to provide them with an opportunity to experience the exhibition.

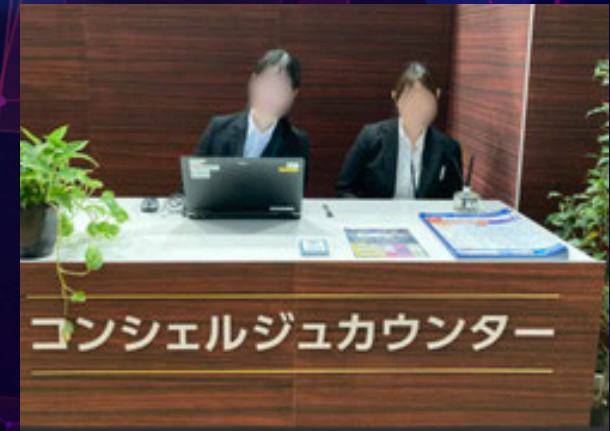

● Premium entrance & registration

● Executive Lounge

● Lounge for AI & DX leaders

Public Relations / PR / Social Media

We carried out PR activities for the exhibition and increased its visibility by having the content featured in the media.

● Press Release (Excerpted, Japanese Only)

PV : 584
Share Count : 19

PV : 441
Share Count : 20

● Television Broadcast Coverage (as of Nov 10, 2025)

- Broadcasted
 - Oct.8, 2025 “WBS (World Business Satellite)” (TV Tokyo)
 - Oct. 11, 2025 “Straight News” (Nippon TV)
- Upcoming Broadcast
 - 2 NHK Programs Broadcast Between October and November, 2025
 - Week 2 of December, 2025 “The Unknown Gulliver” (TV Tokyo)

Public Relations / PR / Social Media

We featured some posts from the exhibition's official X account as well as those shared by exhibitors and visitors. (in Japanese only)
